MEMORANDUM FOR: Director of Central Intelligence

FROM: [REDACTED]

SUBJECT: [REDACTED] FY 79 Increment for SALT Monitoring

1. Attached is our draft for the Special Analysis portion of the budget submission, which concerns the [REDACTED] FY 79 increment given to the NFIP by Congress. The Special Analysis describes the approach the Ad Hoc Group took, the recommended plan and the impact it would have.

2. I have also provided some other views:

-- Tab A, the Memo David Aaron sent after the PRC(I), in which he supports pursuing the plan recommended;

-- Tab B, the pertinent paragraph from the memo the Deputy Secretary of Defense sent after the PRC(I), in which he too supports the plan recommended.

3. It is important to tell the members of the PRC(I) and the NFIB as soon as possible of your decision on the [REDACTED] FY 79 increment. If you sign the attached memoranda, we will try to see that they have it by opening of business Monday.

4. Recommendation: That you sign the attached memoranda, if the plan accurately reflects your decision.

MEMORANDUM FOR: Policy Review Committee (Intelligence)

SUBJECT: FY 79 Increment for SALT Monitoring

1. I have considered carefully the options proposed by the Ad Hoc Group on how best to spend the increment Congress provided for SALT monitoring. The advice each of you offered at our last meeting was an important factor in my decision. I particularly appreciated the written comments that some of you provided.

2. The attached paper explains my decision and contains some background material on the process. I plan to include it as part of the FY 80 National Foreign Intelligence Program budget submission to the President because of the importance of the subject and its implications for FY 80.

3. I am grateful to each of you for your help and hope you concur in the reasoning behind my decision.
